Dear Governor Cooper,

I urge you to help stop the Atlantic Coast Pipeline. The chances of pipeline incidents that would pollute our streams and citizens' well water are too great and the rewards too small. North Carolina is making great strides in producing energy from sustainable, non-polluting sources, and in the process creating many jobs for North Carolinians. Solar and wind energy is the wave of the future and unlike petroleum, they are safe and non-polluting. Please help stop the ACP!
